BO AS A COMPETITIVE TOOL FOR NEW BUSINESS OPPORTUNITIES

When Antilhas was in need for more information speed and accuracy, it opted for SAP Business Objects, provided by FH.

Antilhas is a 100% Brazilian company, pioneer in bringing innovation in packaging for its customers. It has invested for 25 years in research, development, infrastructure and quality, always seeking new technologies and market trends to develop solutions for this segment.

Since it was established in 1989, Antilhas has been investing in technology, quality, infrastructure, research and development, to

ensure excellent service to its customers. The increasing demand for accurate and timely information led the company to seek a solution BO. After implementing SAP Business Objects, information needs for decision-making were met and today they contribute to Antilhas' growth.

OVERVIEW

 Industry	Manufacturing
 Revenue	Not reported
 Employees	700
 Location	Santana do Parnaíba/SP
 Site	antilhas.com.br

CHALLENGES

Reduction of costs and time in generating reports and reduction of OLTP environment resource consumption to query information. Storage and integration in a single environment for information from SAP database and legacy systems and the development of reports that were too complex to be developed in ABAP in OLTP.

SUCCESS CASE

The complete implementation of BW and BO in only 2.5 months and continuous support of the IT team responsible for implementation allowed FH able to focus on the most relevant reports and develop a graphical interface for all reports in BO.

OPERATIONAL BENEFITS

- # More agility in decision-making;
- # Accurate and centralized information;
- # Agility in building reports;
