TAX GOVERNANCE AND AGILITY

Berry Plastics is a leading company in the manufacturing and sale of nonwoven fabrics in Brazil, with significant presence in the Americas and operating globally.

Over the last few years, the company achieved considerable success in expanding and consolidating its leading position in its markets. To keep up with this growth, Berry Plastics needed a full tax governance package.

The idea was to find a product to streamline the tax conculation process. After market analysis, the system adopted to manage the company's tax system was GUEPARDO, FH's solution.

CHALLENGES

- # Simplify as much as possible the system landscape and minimize the number of interfaces;
- # Complement standard SAP with the best adherence regarding tax obligations;
- # Keep the systems in accordance with constantly changing legislation.

SUCCESS CASE

With a highly trained and multidisciplinary team from FH and PGI, it was possible to Implement of GUEPARDO, solution developed following SAP's Best Build Applications Guide, to meet federal, astate and unicipal obligations.

OPERATIONAL BENEFITS

- # Savings in hardware, software and higher ROI;
- # Reduced effort to generate tax obligations;
- # Greater control and visibility over calculations;
- # Proactive monitoring of deliveries of obligations;
- # Easy access and validation of calculation memories;
- # Validation of processes according to pre-configured rules;
- # Greater traceability of tax operations;
- # Increased tax security with the effective registration of calculation memories.
