LAFARGEHOLCIM INNOVATE WITH FH TAX EXPERTISE

The world's leading building materials and solutions company, LafargeHolcim products serve projects ranging from smaller infrastructure dwellings to architecturally challenging buildings.

Among so many challenges, the company stands out for the level of detail in the laws that govern its activities and, any mistake, can result in severe penalties that affect both the company and those involved in the segment. Keeping up with this level of complexity requires a highly specialized and proactive team, as dealing with the IRS goes far beyond delivering files. The information must be properly cleared

and in compliance. By combining FH's tax expertise with LafargeHolcim's partnership and quality level, the Research & Development team updated the GUEPARDO Tax Solution at an unparalleled speed, and the platform optimized the tax accounting routine of all processes and provided return on long term investment.

CHALLENGES

High level of detail in the laws of the segment that the company operates. Remote and proactive support from FH's R&D team to avoid wear and tear during interactions.

SUCCESS CASE

Using best practices in support, FH's R&D team relied on the support and partnership of LafargeHolcim's technical team to update the GUEPARDO Tax Solution assertively and efficiently. With the productivity gains provided by the rapid update, the company can devote itself to the end activity and make overcoming the tax authorities to become a routine action.
