

Greater scope, demonstration of technical knowledge, empathy in partnership, market experience with a senior team were decisive factors during the choice of FH.

Alberto Araújo  
COO  
Belagrícola

The partnership with FH was very important to successfully deliver a project of this complexity. Agile decisions and an engaged staff made all the difference.

André Peretti  
IT Manager  
Belagrícola

## BELAGRÍCOLA IMPLEMENTS SAP S/4HANA, MDG AND GUEPARDO WITH FH

FH was chosen as a partner due to the sum of technical recognition, tax expertise, deliverability and the Recognized Expertise in SAP S/4HANA seal.

#SuccessCase

# BELAGRÍCOLA IMPLEMENTS SAP S/4HANA AND GUEPARDO WITH FH

**Belagícola is one of the largest provider of solutions for farmers, with a technology-based portfolio of products and services. Considered as one of the biggest players in national agribusiness, it expanded its activities to the international market, always reinforcing its DNA: innovation, passion and partnership.**

For some years Belagícola has been investing in improvements in internal processes and governance. By being in a process of expansion, SAP S/4hana platform was chosen to contribute in the improvement of productivity and efficiency, as the structured database provides accurate analysis and safety in operation, with the possibility of full control of the business.

In addition, in order to enhance the delivery of obligations to the tax authorities, GUEPARDO proved to be the Fiscal Solution most in line with the company's reality, given the quantity and complexity of electronic reports, as well as the ability to consistently crosscheck information and ensure optimized files.

## OPERATIONAL BENEFITS

- # Smart decisions based on accurate, real-time information;
- # Gain in efficiency, performance and productivity;
- # Improvements in internal processes and data governance;
- # Security and reliability of information;
- # Integration with other global platforms;
- # Full control of the business;
- # Quantitative analysis of forecasts;
- # Increased competitiveness.

## OVERVIEW

	Industry	Agribusiness
	Income	Not informed
	Employees	+ 1.300
	Location	Londrina - PR
	Site	belagricola.com.br

## CHALLENGES

To replace the management system, Belagícola needed a certified partner that would simplify processes in unifying all information in the same database, as well as boosting competitiveness and ensuring compliance in the delivery of obligations to the tax authorities.

## SUCCESS CASE EVEREST PROJECT

In addition to SAP S/4HANA and GUEPARDO, the project has a data management and governance solution - SAP MDG (Master Data Governance) and a quantitative forecasting, financial reporting and budgeting tool - SAP BPC (Business Planning & Consolidation).
